

7DR NCO & ADMIN GUIDE

01 - EVENT ORGANISATION

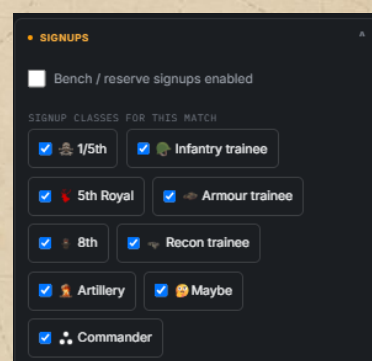

A - ACCESS

You must have the "Fight Arranger" role in order to organise events, make squads and make maps.

Our current tool for creating events is [Cadre](#) you will need a sign-in link from the Cadre admins – make sure to sign-in via discord and add your T17 ID to your profile.

B - HOW-TO CREATE A MATCH

1. Open Cadre
2. Navigate to Matches
3. Click "Create New Match"
4. Fill in as many details as you can about the match including team size.
5. Ensure signups close 24 hours before the match starts
6. The signups should look like the image shown right.
7. You can then either create the event and send an immediate signup post OR just create the event in Cadre in readiness for a signup post later, you may choose to do the latter if there are already more than ~6 events out for signup and your new event is further out in the calendar than those.
8. If you choose to send a signup post now, then it will create a channel for this signup as shown right.
9. You then need to go to discord and ping @everyone in the new signup channel with details on when the signups close (24 hours before).

C - POSTING SEPARATE SIGNUPS

If you or someone else did not post the signups when the event was created in Cadre then follow this procedure:

1. Open Cadre
2. Navigate to Matches
3. Click on the match you want to post
4. Scroll down and click on "Edit Match" to check all of the details are present!
5. When ready click "Post Signups" and, when prompted to select a channel, ensure that you select "Create a new channel for this match" shown right
6. then it will create a channel for this signup as shown right.
7. You then need to go to discord and ping @everyone in the new signup channel with details on when the signups close (24 hours before) and some hype!

E - COMPETITION ROSTERS

Our discord bot has a roster system which displays and manages (locks/unlocks) a roster. You need an administrator to set this up. A competition role (e.g. Summit S4, HelIEU S5) should be created and filled with all players who have the "Basic Trained" role at a minimum and any trainees who warrant inclusion. Admins then need to use the competition roster system within Cadre > Competitions to gate the signup posts.

SUMMARY

- Signups close 24 hours before the match
- Roster is locked once the signups close and hired guns can be 'firmed-up' at this point but if there's people coming out of the woodwork like older guys, or people who are having a torrid time then give them one at your discretion.
- No more than 6 signup channels at one time, these channels should delete themselves after the match however if they don't, please delete them.
